Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 04 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Occasional rain moving south today. Drier and brighter later. Colder.

Today:
A band of cloud and occasional rain will be moving southwards during the morning, weakening as it does so. Perhaps turning wintry on hills. Rain soon clearing to leave sunny spells and some showers during the afternoon. Feeling cold. Maximum temperature 6 deg C (43 deg F).

Tonight:
Overnight will be largely dry with clear spells, and perhaps a few isolated showers along the coast. Colder than previous night with a widespread frost. Minimum temperature 2 deg C (36 deg F).

Friday:
After a cold and frosty start, it will be largely dry with sunny spells. Chance of a few isolated showers. Feeling cold, but offset by sunshine and light winds. Maximum temperature 5 deg C (41 deg F).

Outlook for Saturday to Monday:
Staying largely fine and dry with sunny spells Saturday. Light winds. Similar conditions on Sunday. Cold and frosty nights to come. Dry start on Monday, some rain possible later.
